

THE GOOD DOCUMENTATION

¹The DOCUMENTATION is my guide; I shall not wonder.

²It maketh me to understand the necessary concepts;
It leadeth me through the installation process.

³It reassureth me;
It leadeth me on the happy path for my desired objectives.

⁴Yea, though I work through the advanced configuration menus,
I will fear no failures, for thou art with me
Thy FAQ and thy troubleshooting they comfort me.

⁵Thou providest examples to me in the context of mine use cases.
Thou explainest my expected outcomes.
My results are perfect.

⁶Surely good performance and stability will persist throughout the system life
And it will run within the parameters of the DOCUMENTATION forever.
